N FLEEING FROM THE YELLOW FEVER

Penniless Refugees Are Meeting With Many Difficulties.

CINCINNATI HAS FIVE CASES

Refugees Prevented From Stopping in Some Kentucky Cities—Could Not Get Off the Cars at Lexington—The Police Interferred.

Cincinnati, O., Sept. 15.—At least [illegible] persons suspected of having yellow [illegible] arrived in the city today. The [illegible] consisted of 200 refugees from Lake Providence and Tallulah, La., who were fleeing from the fever.

When the train reached Lexington, Ky., several who were sick and tried to get off the train, were caught by the police and forced back. The Cincinnati physicians will investigate the cases of those sick.

Light and Sound.

Light travels so vastly much faster than sound that there is no comparison between their velocities. The velocity of light is about 190,000 miles a second. At this speed light will travel about eight times around the earth in a second, and light starting from the sun will traverse the 93,000,000 miles of space intervening between the sun and the earth in eight minutes. So it is seen light flashes from one part of the earth to another, even the most remote, instantaneously, or practically so. Sound travels worse than a snail's pace as compared with light, going only about 1,100 feet in a second, or about a mile in five seconds, or twelve miles in a minute. These facts are noted, though not always understood, by any one who sees a gun fired only a few hundred yards away. The flash and the puff of smoke are seen instantaneously; the report of the gun always comes perceptibly later, the time intervening being greater or less, according to the distance.

Catching the Early Spider.

One must be an early riser if he would photograph a spider's web, for the delicate fabric must be taken when the dew is yet on it, so that the outlines will be in sharp relief. The best success is obtained when the webs are on pine trees, and spiders seem to favor these trees because of the shelter they afford. Look on the least exposed side of the tree for your web, for instinct teaches the little creatures to make their homes where the strong winds do not strike. In taking the picture the lens should be brought very near the web, in order to make the threads as large as possible. I have photographed a spider's web with a 4 by 5 camera and with a 6½ by 8½ instrument, having equally good success in each case. It is well to have a rubber focusing cloth and to keep it over the camera all the time, for the person who hunts spiders' webs early in the morning must be prepared for dampness.—Suburban Life.

The Term "Greenhorn."

The term "greenhorn" originated in this way: The pioneers of the west were much given to hunting deer. It was a fact known to early settlers that when the horn of a fawn began to grow there was a ring of green hair around the spot. It was considered a disgraceful thing for a hunter to kill a fawn, a cruel act, and the killing time was regulated by the growth of the horn. There was a sort of unwritten law that no one should kill a male fawn before its horn could be seen. A person who was so unthoughtful as to kill a deer under the proper age was called a "greenhorn." He was so named because the young horn of the deer and the hair around it were still green. The use of the appellation gradually spread until it was applied to all raw or inexperienced youths or persons easily imposed upon.

Saved His Own Name.

After a recent bank holiday in London one of the police courts the next morning had among its "drunk and disorderly" prisoners a man who said he was William Shakespeare. "Is that your real name," asked the judge, "or just your nom de guerre?" "Well, your honor," replied the prisoner, "it is true that I was not christened William Shakespeare, but, you see, I hated to [illegible]

WHAT SHE PLAYED.

The Last Music That Theodore Thomas Heard on Earth.

During the last illness of Theodore Thomas, although he was not at any time unconscious or delirious, he hardly noticed the members of his family as they came and went at the bedside. But one morning he seemed to be better.

He made little jokes with the doctors and his sons and talked about his White mountain home. At 12 o'clock he seemed tired. The editor of his autobiography says that he sank into a dreamy state, and then roused himself to say to his wife in a lingering, ecstatic voice:

"I have had a beautiful vision—a beautiful vision!"

Then he drifted off into silence.

His wife thought he was tired and went downstairs to luncheon, but chiefly with the purpose of leaving him to rest. He had given her a chime of bells, to be used in summoning the family to meals, and because of his illness they had never been rung in the house. Now, because he seemed so much better, she played on them a little bugle call that came into her head.

"Do you know what you have played?" asked one of the family. "Taps—the call that is sounded over the graves of dead soldiers."

She rushed back to the bells and played the call engraved on a metal plate above them. Afterward she found that this was reveille, the soldier's signal to rise.

So it had chanced that the last music Theodore Thomas heard on earth had been symbolic of death and the resurrection.—Youth's Companion.

THE DAINTY WASP.

Apparatus With Which He Makes His Complicated Toilet.

"Wasps are exceedingly dainty in their habits," says a writer in the Pilgrim, "and, in order that they may gratify their instinct for neatness to the utmost, nature has provided them with a set of marvelously delicate combs and brushes. If we look closely at the wasp's legs we will find that each bears on its outermost long joint two small, movable spines, known as the apical spurs, and if we examine these with a magnifying glass each is seen to be provided with a row of fine teeth, so that the apparatus answers for a coarse and fine toothed comb.

"The tidying up process consists of various perfectly definite steps, usually taking place in a particular sequence. First, it passes both front legs over the face from above downward, and after repeating this movement several times draws them through the jaws. This is to remove any foreign substance which may have collected on them. The legs are then passed backward from the forehead, much as we should smooth back our hair. The wings are then stroked again and again from the base to the tip, although the most careful observer would fail to detect anything upon them. The abdomen is next carefully stroked from base to tip until every hair points in the right direction and a gloss as fine as satin is attained. Last of all, each of the six legs, in turn, is laboriously drawn between two of its fellows, so the wasp is once more ready to face its world."

A Story of Washington.

George Washington's head gardener was from some European kingdom, where he had worked in the royal grounds. But coming to America he left his wife behind. Homesickness for his "gude" woman's face soon began to prey on him, and Washington noticed the anxious eye and drooping spirits of his servant. Finally the man went down to the river and declared his intention of shipping to the old country, when who should come up and lean over the side of a newly arrived vessel but his wife. The kind hearted general had secretly sent for the woman, and she fortunately surprised her loving husband in one of his fits of despondency.

Followed.

A servant girl had been sent on an errand. On returning she said to her mistress, "Oh, ma'am, there's been a young man following me." Mistress—Oh, indeed! Servant Girl—Yes, ma'am. I know he was a-following me, because he kept looking around to see if I was coming.

Tart Answer.

"A woman's bonnet would not cost much if it wasn't for the trimming," said the miserly husband.

"Neither would a man's whiskers," [illegible]

PENSACOLA IS STILL FIGHTING FEVER

Only One New Case Reported up to Noon Yesterday.

TEN HAVE DIED UP TO DATE

Thorough Work is Now Being Done by the Health Officer and His Assistants—Volunteer Nurses Are Doing Good Work.

Pensacola, Sept. 15.—Yesterday afternoon there were four new cases reported and one death. Last night a Greek died. He had been sick since Saturday. Of yesterday's cases two are negroes. Albert White, a bank clerk, is the only new case reported up to noon today. There has been ten deaths, and ten are now being treated.

New Orleans, Sept. 15.—From 6 p. m. yesterday until noon today there were 16 new cases and one death. Dr. White announces that he will relentlessly prosecute those who may be guilty of hiding new cases.

Leeville has had a total of 49 deaths, with many still sick.

Why He Wanted a Tenner.

Application was made at half a dozen stores before the man could get one ten dollar bill for his roll of ones.

"I don't see," said the man's companion, "why you went to all that trouble. You are going to pay the money right over to your tailor. Why didn't you give him the one dollar bills?"

"Because it would make a bad impression," was the reply. "I am broke, but I don't want him to know it. Whenever you get in that fix pay your debts in the largest bills that you can get hold of. It enhances your value in the estimation of tradesmen and paves the way for further credit. A fellow will think a heap more of you if you pay with one five dollar bill than with five ones. A handful of chicken feed indicates that you have had to hustle around pretty lively to get the money and that there isn't much left where that came from. A man who really has money can afford to pay in pennies if he feels like it, but he who has little can keep up his credit only by using large bills."—New York Press.

Handel's Appetite.

Handel was blessed with a wonderful appetite, and many are the amusing accounts, true or otherwise, as to the means taken by its owner for its indulgence. His gastronomic propensities were frequently the object of satires, and in one caricature the composer is represented as sitting on a beer barrel. A ham and a pair of fowls are attached to the pipes of an organ, a turbot lies upon a pile of books, and the floor of the apartment is strewn with oyster shells. It is more likely that his adversaries invented and propagated many of the wild stories concerning his eating and drinking powers than that they had any foundation in literal fact. No one would probably order a dinner for three persons for instance, and because it was being kept back for the company to arrive blurt out to the astonished waiter: "I am de gompany. Bring up de tinner bretissimo."

Sniping In Warfare.

The method of sniping in warfare is as follows: Three men set out, two in one direction and one in another. The single man, when he believes he is in the neighborhood of the enemy, lets off his rifle, no matter in what direction, and thus draws the fire of the sentry. Immediately the two other stalkers fire into the space lit up by the discharge. When this goes on, all round the camp the result is constant alarm at night time. Soldiers are warned not to reply to a sniper, but the temptation is well nigh irresistible. Their exertions, however, meet with little success, for snipers generally stalk the sentries from behind stones.—London Globe.

Patriotic.

"That horrid Uxorly has married again?"

"Yes, and he's awfully fond of his latest wife. He says she's his glorious fourth."—Chicago Tribune.

The haughty are always the victims of their own rash conclusions.—La Bruyere.

STYLES IN COATS.

Origin of the Cutaway Frock, the Sack and the Dress Coat.

The modern cutaway sprang from the body fitting justaucorps of the French as known to the courtiers of Louis XIV. and Louis XV., and the garment was in turn probably evolved from the frock or tunic worn in the fourteenth century.

The first trace of a cutaway in anything like its present form, says the Sartorial Art Journal, is seen in old prints of French military uniforms, early in the eighteenth century. For civilian use it was worn in England about 1785 as a riding coat, the tails being very long. In 1893 it was adopted in France for walking as well as for riding and was then in shape and cut much nearer the modern cutaway than any of its predecessors, though it was usually double breasted.

Early in the nineteenth century the cutaway had eight or nine buttons, only the fourth, fifth and sixth being used. This admitted of the wearer showing his neckcloth, fancy waistcoat and frilled shirt to the best advantage. Not till 1840 or thereabout did the cutaway become almost identical with the modern garment and since then the changes in its shape have been comparatively slight. In 1841 the word "cutaway" became a fixture in the language.

The old colonial uniform worn by Washington, with its flaps buttoned back; the coat worn by Nelson at the battles of St. Vincent, the Nile and Trafalgar, and the coat worn by Napoleon when on his way to St. Helena were all in a general way similar to the cutaway frock.

The conventional dress coat of our time is a refined younger brother, so to speak, of the cutaway frock, and for it we are indebted to the French, who on the other hand credit the English with originating the coat that has evolved into our double breasted frock. The coat last named was introduced into France by Montesquieu in the year 1750.

Incidentally, we may add, the present black dress coat has by the English speaking nations been restricted to evening wear little more than half a century. In some continental countries the dress coat is "proper form" for wear at court or other important formal assemblages held in the daytime.

The sack coat probably dates from the "Macaronies," who introduced it into England in 1772, though a garment somewhat similar was worn by the Roundheads of Cromwell's day.

POINTED PARAGRAPHS.

An elderly person is a mighty poor judge of a circus.

We don't blame the children. We have done worse than kick and scream to have our way.

The young hate work, but it is the last pride, the last joy of the aged, that they are able to do it.

Sometimes a hostess has this kind of misfortune: Her guests have such a good time they don't want to go home.

Be careful what you say to some people. [N. B.—On second thought we have decided not to use that word "some."]

When a man has a picture taken, for the first five weeks afterward he spends a great deal of time in taking surreptitious looks at it and wondering if every one else sees the good points in it so plain to his eyes.—Atchison Globe.

Minute Animal Life.

"The microscope teaches us," says a scientist, "that there are animals so wonderfully minute that if a thousand of them were ranked abreast they could easily swim, without being thrown out of order, through the eye of the finest cambric needle ever made. Yet each of the minute creatures is a highly organized number of particles, capable of moving about, of finding and devouring food and of behaving in all respects as becomes an animal as distinguished from a fragment of unorganized matter." The human mind is utterly incapable of realizing the structure of these little creatures and of fully appreciating their marvelous adaptation to the life they are destined to lead.

Odd Coincidence.

Mrs. Jasson said to Mrs. Lammis in perfect confidence, "Do you know mine is the prettiest baby in the world?"

"Well, really, now, what a coincidence!" said Mrs. Lammis. "So is mine!"

BOARD INCREASED COAST LINE VALUE

Must Pay Taxes in Georgia on Twelve Million.

COMPTROLLER GETS REPORT

Arbitrators Make the Amount Only $16,000 Less Than the Assessment. An Increase of Over $2,000,000 Oves Company's Return.

Atlanta, Ga., Sept. 15.—The Atlantic Coast Line Railroad Company must pay taxes on $2,010,696 more than the amount at which it returned its total property in Georgia for taxation.

This was the conclusion reached by the arbitrators yesterday when they made their report to Comptroller-General Wright.

The company returned its total property in Georgia at over ten million which was rejected and assessed the road's physical property at $9,[illegible]42, and its franchises at $3,388,[illegible]00, making a total of $12,657,502, or an increase of $2,027,590 over the company's returns. The board of arbitration made no changes having effect on the total.

Lola Montez.

At one time there was much commercial and social intercourse between Ireland and Spain. Galway and Waterford were the chief Irish ports engaged in this trade. To this day the Spanish type of beauty is discernible among the Galway girls. Probably the most famous result of the blending of Spanish and Irish blood was the actress and dancer Lola Montez. Her true name was Marie Dolores Eliza Rosanna Gilbert. She captivated European monarchs as well as popular audiences and was for a year or so practically the ruler of Bavaria until a revolution compelled her to flee.

Spelled With a "V."

Frank Millet's baby was christened in London when Hutton and Lawrence Barrett were present. The child was to be named Lawrence, and Barrett spelled it out "Lawrence," as his name was spelled. Hutton immediately corrected him with "Laurence," as his own name is spelled. And they shouted this at each other, to the amazement of the parish clerk, till Mr. Millet stopped them, with the remark that the father ought to have something to say and, turning to the clerk, said, "Spell him with a 'v.'" And Lawrence Millet he was made by law.—Christian Register.

Civilization and the Kaffir.

On bare feet, of which the skin grew so tough as to enable him to run over the sharpest rocks without flinching, the old Kaffir could easily walk, as fast as a horse trots, fifty miles a day. The Kaffir who still goes barefoot can do so today. He used likewise to be able to get a light—the "boy" who is constantly bothering one now for matches—by rubbing two sticks together. Now he is as helpless in the dark as ourselves.—Pall Mall Gazette.

Doubly Embarrassing.

Suitor—Beg pardon for interrupting, but—I—er—have just come—er—that is, I have just been speaking to your daughter, and she referred me to you. Old Gentleman—Gee crickets! I wonder if that girl thinks I am made of money. You are about the fortieth bill collector she has sent in today. If she doesn't marry pretty soon I'll be bankrupt.—New York Weekly.

In the Beginning.

"I tell you, Singleton, you don't know the joys and felicities of a contented married life, the happy flight of years, the long, restful calm of—"

"How long have you been married?"

"Just a month."

A Queer Thing About July.

How we came to pronounce July as we do now with the accent on the second syllable is one of the unsolved mysteries of speech. Named, of course, after Julius Caesar, it should really be pronounced to rhyme with "duly," and so our forefathers actually did pronounce it. Spenser, for instance, has the line, "Then came hot July boyling like to fire," and even so late as Johnson's time the accent was still on the "Ju." It is one of many words which would startle those ancestors of ours, spoken as we speak them now.—London Chronicle.

MICANOPY DOINGS.

Mr. Melton Building Saw Mill—Notes of Personal Interest.

Micanopy, Sept. 14.—Miss Gertie Katz has returned to her home in Jacksonville after spending a week here visiting relatives and friends. Miss Gertie was raised here, but for several years she has been living in Jacksonville. Her many friends were glad to see her looking so well.

Miss Mabel Thrasher left Tuesday for Baltimore to spend a few weeks. While there she will select the latest styles in millinery for her father, Mr. J. B. Thrasher's millinery department of his store.

Miss Ethel Watkins is spending her vacation in Micanopy with relatives.

Mr. and Mrs. J. B. Simonton have returned home after spending several months at their summer home in Adairsville, Ga. Mr. Simonton has some large peach orchards in North Georgia that are paying him handsomely. He will plant a large fall and spring vegetable crop. He is one of our most successful vegetable farmers.

R. L. Taylor of Ocala, one of the valued employes of the A. C. L. Railway, is in town today.

Mrs. S. C. Means is home again after spending the summer in Georgia and Alabama.

J. B. Thrasher, wife and Ralph returned home from Baltimore and other Eastern cities last Friday. While away Mr. Thrasher bought one of the best assorted and largest stocks of general merchandise ever brought to this place.

The Micanopy High School will open on the first Monday in October. Everything indicates that there will be a large attendance.

C. E. Melton has gone to Ellijay, Ga., to join Mrs. Melton and the children and to spend a few days in the hills of North Georgia. He will be absent for several days visiting Ellijay and other points.

J. S. Neal of McIntosh is in town today.

H. R. Stokes, the melon grower of Tuscawilla, is in the city today.

Mrs. J. P. Hester has returned home after a pleasant outing at Daytona.

Rev. E. A. Gray and wife are home again after spending a few weeks at White Springs.

Rev. T. J. Norsworthy preached two good sermons last Sunday at the Methodist church.

The young people enjoyed a moonlight picnic at W. C. Smith's, Tacoma, Tuesday night. All report a pleasant time. Mrs. Smith knows how to entertain.

Rodney Miller and sister, Miss Annie Rodney Miller, have gone to South Carolina to spend a few weeks visiting relatives and friends.

Mrs. J. A. Simonton has had her two dwelling houses here repainted. Others would do well to do likewise.

Dr. W. C. Johnson has sold his drug store to Mr. McGriff. The Doctor will still continue to practice his profession at this place.

Miss Christine Wideman of Tallahassee is visiting her grandmother, Mrs. J. A. Edwards.

Rev. J. T. Duncan has moved into the Barnett house. We are glad to have Mr. Duncan in our midst.

W. D. Babbitt of Reddick has moved into the Saunders house on Seminary street.

C. E. Melton is building his saw mill near the G. & G. depot. This gives the town three saw mills.

G. W. HYDE.

A GREAT EDUCATIONAL MOVEMENT!

A Magnificent Library Worth $500 Offered Free of Cost!

Something SUN Readers Should Consider

Read the Following Details Carefully:

The Mystery Surrounding the Beautiful Display in G. W. HYDE'S Window Revealed in the following.

A number of our enterprising merchants have arranged what will prove to be a most interesting contest between the High School, Twentieth Century Club, Odd Fellows' Home, B. P. O. Elks, Volunteer Firemen, Masons, W. O. W., K. of P., Gainesville Guards, Kirby Smith Chapter or J. J. Finley Chapter of the U. D. C., or any church, Sunday school, hospital organization or institution you would wish to own the beautiful library valued at $500, now on display at G. W. Hyde's.

THE REWARD will be a magnificent library; consisting of 200 volumes of the standard subscription publications of the day as follows: The Great Chas. Dudley Warner "Library of the World's Best Literature," 46 volumes; "Library of the World's Greatest Classics," 30 volumes; the Anglo-American Dictionary and Cyclopedia, 12 volumes; Library of Oratory, by Depew, 15 volumes; Works of Balzac, 36 volumes; the Library of Poets, 32 volumes; the World's Best Essays, 10 volumes; History of Our Great Commanders, 12 volumes.

Each and every one of these books are specimens of the best mechanical execution, which examination will prove.

The conditions of the contest are as follows: Any lodge, church or school club, hospital or organization, public or private, is eligible to the contest. Votes for individuals will not be counted. With each 10 cents purchase a ticket will be given by the merchant through whose liberality these grand libraries are furnished, on which will be written the amount of the purchase and the number of votes. The purchaser will write on the ticket the institution or organization for which he or she desires to vote, sign their name and deposit the ticket in the ballot box in the store in which the purchase is made.

The standing of the contestants will be published exclusively in each Sunday's issue of The Sun until October 14th, 1905, at 7 o'clock p. m., when the remaining votes will be counted, and the magnificent library awarded to the organization having the largest number of votes. The Sun will publish in each issue a coupon which will entitle the holder to two votes that will be credited to the institution that is written on space provided for same when delivered to the ballot boxes in either of the stores.

A Fine Trio.

A fine trio of pedigree pointer dogs were received here Friday from Lincoln Kennels, Lincoln, Ill. The canines are of the Riprap and Jingo breed, which is said to be the finest in the country. One of the pups belonged to J. Maxey Dell, another to L. C. Lynch, and the third to Dr. Gordon B. Tison.

Naturally, the owners of this blooded stock are proud of their possessions.

Attacked by a Mob

And beaten in a labor riot, until covered with sores, a Chicago street car conductor applied Bucklen's Arnica Salve and was soon sound and well. "I use it in my family," writes G. J. Welch of Tekonsha, Mich., "and find it perfect." Simply great for cuts and burns. Only 25c at all drug stores.

TIMELY SUGGESTIONS.

The Alachua County Fair Association. Exhibits for State Fair.

The Alachua County Fair Association has issued a circular relative to providing an exhibit at the Florida State Fair, which will be read with interest by the people of the county who intend sending exhibits, and who want to see Alachua county's products shown up well at Tampa.

Persons are not asked to give their exhibits to the Fair Association. They are only asked to loan them for exhibition at the Tampa State Fair. If the articles are properly tagged they will go safely and be returned to the owner. Tags can be had from the commissioner of your election precinct free of cost. Fill out your address, express and postoffice in a plain hand-writing. Boxes containing exhibits should have the lids fastened with screws to prevent breakage in opening and facilitate repacking

SHEPHARD TO JACKSONVILLE.

Man Arrested Upon Charge of Illicit Distilling Taken Away.

Abraham Shephard, the negro who was arrested by United States officers, assisted by local deputies, near Mikesville, Columbia county, Wednesday, upon a charge of owning and operating an illicit distillery, and who was brought to this city Thursday, was taken to Jacksonville Friday, where he was given a hearing before the United States Commissioner.

This story was fully covered in The Sun of Friday. The officers raided the still, which it is alleged had been in operation for several months, and a quantity of beer and whiskey was secured.

The result of the finding before the commissioner was not learned, but the evidence was of such a nature that it is natural to suppose the prisoner was held to await the action of the Federal grand jury.

LAKE CITY INDEX SLOW.

Nine Boys Left for St. Leo College and Appleyard Overlooked It.

Editor Sun: Inasmuch as Publisher Appleyard of The Index of this city cannot be depended upon to publish all items of interest, I will resort to the generosity of your valuable paper, which circulates fairly well in Lake City, to state that William Buie, E. Irvine, Lee Roy Crabb, Lee Julian, Ray Brown, Leonard Brown, Clifford Anderson, Leonard Nance and William Nance, all members of well known Lake City families, left here a few days ago under the care of Dr. A. J. P. Julian for St. Leo College, St. Leo, Fla.

It might be that Editor Appleyard did not have the room to spare after he finished telling about other people going to Sweetwater, Tenn.

Respectfully, PEE DEOO.

COMMITTEE REPORTS.

Grading Committee for Teachers' Examination Finished Work.

The grading committee appointed for the purpose of examining the papers of applicants for positions as teachers in the schools of Alachua county has made its report.

There were thirty-one white applicants and two colored. Of the whites five received first grade, three second grade and fourteen third grade certificates, nine having failed to come up to the minimum average. Of the colored one passed, securing a second grade certificate while the other failed.

The grading committee comprised Prof. Tom F. McBeath, Prof. W. E. Bell and Mrs. C. C. Powell.

Meeting of Elks.

The regular meeting of Gainesville Lodge No. 861 B. P. O. E., was held in Masonic Hall Thursday night, and was largely attended, which was evidence of the continued interest in the "baby lodge."

During the evening four candidates were given their antlers, and the work was conferred in a most impressive and creditable manner, considering the fact that the order is new here, and a great deal of the paraphernalia has not yet arrived. The improvised paraphernalia, however, served its purpose very well as can be attested by the quarry which was given a chase over the hot sands of Elkdom desert.

There are many applicants yet to be initiated into the mysteries of Elkdom, and those who have already passed through that strenuous ordeal are anticipating an interesting time.

Much prudence does not always keep us from committing follies, nor much reason from thinking them, nor much virtue from loving them.

Women as Well as Men Are Made Miserable by Kidney and Bladder Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor, and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh, or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of **Swamp-Root** is soon realized. It is sold by druggists, in fifty-cent and one-dollar size bottles. You may have a sample bottle by mail free, also a pamphlet telling all about Swamp-Root, including many of the thousands of testimonial letters received from sufferers cured. In writing Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

NEWS OF CITY AND COUNTY CONDENSED

Prof. W. N. Sheats and family have arrived in the city from Tallahassee, and will make their future home here. Prof. Sheats has been appointed principal of the Gainesville Graded and High School.

Mrs. Barney Page of Otter Creek, having joined the Baptist church by profession of faith, was immersed in the church here yesterday afternoon by the pastor, Rev. S. B. Rogers. Mrs. Page is on a visit to her brother, William Fowler.

JACKSONVILLE'S QUARANTINE.

People Are Wondering How It Is Maintained Against Florida.

In view of Section 3, Chapter 4345, Laws of Florida, the people of the State are wondering how it is that Jacksonville can maintain a quarantine against all parts of Florida.

This quarantine, it is said, is being enforced without the authority of the State Board of Health, and the traveling public is being considerably inconvenienced by being compelled to produce health certificates before being permitted to enter Jacksonville.

Beautiful Women.

Plump cheeks, flushed with the soft glow of health and a pure complexion, make all women beautiful. Take a small dose of Herbine after each meal; it will prevent constipation and help digest what you have eaten. Mrs. Wm. M. Stroud, Midlothian, Tex., writes, May 31, 1901: "We have used Herbine in our family for eight years, and found it the best medicine we ever used for constipation, bilious fever and malaria." Sold by W. M. Johnson.

Steam Roller at Work.

Pending the arrival of the flint rock material from the Rocky Point quarries, the steam roller recently received by the city has been at work on various small jobs, and Friday was employed packing and rolling a quantity of Alachua soft rock which had been placed on East Liberty street, between University and Factory.

A large force is engaged in mining rock at Rocky Point, and the first consignment is expected on every train. Immediately upon its receipt the crusher will be set to work, and the building of West Liberty street west from the Gainesville & Gulf tracks will begin.

Sprains.

S. A. Read, Cisco, Tex., writes, March 11, 1901: "My wrist was sprained so badly by a fall that it was useless; and after using several remedies that failed to give relief, used Ballard's Snow Liniment, and was cured. I earnestly recommend it to anyone suffering from sprains." Sold by W. M. Johnson.

Gone to Rest.

On Thursday, Aug. 24, 1905, Glayds Morine, the 11-months-old baby of Mr. and Mrs. Jno. D. Crosby of LaCrosse, closed its eyes to earthly things, and went back to its Maker. Glayds was a beautiful child, of a sweet, gentle disposition, and the loving father and mother had surrounded it with all the love and attention possible, but the Master's call was answered promptly, and another angel was added to the happy throng above.

The skill of the physician, the prayers of an anxious mother, and the kind deeds of friends and relatives could not stay the hand that wrenched their jewel from them.

The little corpse was laid to rest at Antioch Cemetery, but its spirit is safe in the arms of Jesus, where it awaits the happy reunion with loved one left behind.

Our dainty little rosebud
Was getting ready to unfold
Its richly-tinted petals,
Shaded with purest gold,
But in this poluted world
God chose not for it to bloom,
Where sinful vices might corrupt
And fix for it an awful doom;
So in his garden fair
He has placed our little flower,
Where it will disclose its fragrance
As it opens in Eden's holy bower.
Sigh not, loved ones, that it is gone;
It did not fade, droop and die—
Only an angel gathered it
For a bouquet beyond the sky,

ONE WHO LOVED HER.

Are You Engaged?

Engaged people should remember that, after marriage, many quarrels can be avoided by keeping their digestions in good condition with Electric Bitters. S. A. Brown of Bennettsville, S. C., says: "For years my wife suffered intensely from dyspepsia, complicated with a torpid liver, until she lost her strength and vigor and became a mere wreck of her former self. Then she tried Electric Bitters, which helped her at once and finally made her entirely well. She is now strong and healthy." Sold at all drug stores and guaranteed, at 50c a bottle.

Pepys and the Cook Maid.

There was a servant problem in the seventeenth century, but it was solved in a rough and ready fashion. Pepys records on April 12, 1667, that he came home, "saw my door and hatch open, left so by Luce, our cook maid, which so vexed me that I did give her a kick in our entry and offered a blow at her."

Two days afterward (Lord's day) Pepys writes this: "Took out my wife and the two Mercers and two of our maids, Barker and Jane, and over the water to the Jamaica house, where I never was before, and there the girls did run for wagers over the bowling green, and there with much pleasure spent little, and so home." Luce was not there, but the other maids were treated as members of the family.

Small Coins.

The natives of the Malay peninsula have in use the very smallest current coin in the world. It is a sort of wafer made from the resinous juice of a tree and is worth about one ten-thousandth of a penny. The smallest metal coin in circulation at the present day is the Portuguese three reis piece, worth twelve one-hundredths of a penny. The smallest coin circulating officially in any part of the British empire is the five millesima piece of Gibraltar, worth about half a farthing.

If the Baby is Cutting Teeth

Be sure and use that old and well-tried remedy, Mrs. Winslow's Soothing Syrup, for children teething. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for diarrhoea. Twenty-five cents a bottle.

A Quaint Inscription.

An old churchyard near London is famous for the inscriptions on its tombstones. There is one on the memorial of Susannah Barford, died 1652, aet. 10 years and 13 weeks. The concluding lines beneath the skull and crossbones on her monument are:

Her stage was short, her thread was quickly spunn
Drawne out and cutt, got heaven, her worke was done
This world to her was but a traged play
Shee came and saw't, dislik't and passed away.

Insurance and Assurance.

"Pa," asked Tommy, "what's the difference between 'assurance' and 'insurance?'"

"Well, my son, one is what the agent has, and the other is what he persists in trying to sell you."—Catholic Standard and Times.

YOUNG WIFEHOOD

BOSTON, MASS., 152 Shawmut Ave., Oct. 25, 1902.

After I had been married about four months I felt my health generally decline. I seemed to lose the light step and dragged wearily along instead. My appetite failed me and I lost health and strength. I was nervous and had shooting pains through my limbs and stomach while bearing down pains and constant headaches added to my misery. The menstrual flow became more and more profuse and I was unfit to attend to my daily duties. My husband called in three different physicians and I took enough medicine to kill or cure a dozen women, but it all had no effect on me whatever, until I took Wine of Cardui. In a few days I felt a change for the better, my general health improved and at the next time of my periods my flow was more natural and I was in less pain. Gradually I recovered my health and strength and am now in perfect health. I take an occasional dose of Wine of Cardui which keeps me well.

I am happy to give you this endorsement. Bertha Ricker

President, Back Bay Woman's Club.

Why don't you try for the same health Mrs. Ricker has? It is easy to secure if you take Wine of Cardui according to directions. Wine of Cardui strengthens weak and worn-out women of any age and assists the mother and housewife to bear her exacting duties. Wine of Cardui makes women fit for all the duties of womanhood.

It will relieve the pains of irregularity, cures falling of the womb, leucorrhoea, ovarian troubles, and has been known to remove what physicians considered dangerous tumors. Women who use Wine of Cardui do not suffer at the monthly periods. They do not suffer hysterical attacks, because Wine of Cardui gives them strong nerves freed from the irritation of female suffering.

A $1.00 bottle of Wine of Cardui purchased from your druggist will keep you free from pain.

Transpiring in "The Land of Flowers."

Things "Boiled Down" to Suit the Busy Reader—Items of Interest to All Classes.

A Masonic lodge has recently been organized at Fort Meade.

Tampa is making an effort to organize another military company.

The schools of Miami opened with an attendance of 350 pupils, a gain over last year.

The fire department of Jacksonville is being annoyed with having false alarms turned in.

Dr. John MacDiamond of DeLand will go to Pensacola to assist the physicians in the yellow fever cases.

The disinfectant used at Pensacola is made at home or at Bohemia, near that city. It is said to be the best on the market.

The orange crop on the Glen St. Mary Nursery trees is a fine one this season, and beats any grove of its size in the State.

Game Warden Robinson made a raid on some of the seine fishermen near Otter Creek, securing the nets and boat. The operators escaped.

There is a contest going on for the principalship of the Perry schools. The other teachers are also having a struggle to see who will be elected.

The Indian River Hotel at Titusville is entertaining quite a large number of guests. A library has been added to the conveniences of the hotel.

Miami firemen are getting their fire fighting apparatus in the best shape and are making some quick runs to fires. Miami never does things by halves.

T. F. Brantley, the produce drummer of Jacksonville, who got arrested at Macclenny for taking orders for the products of the still, paid $150 for his privilege.

The shipments of fish from Titusville, during the month of August, amounted to 1,000 barrels in round numbers; about 200 barrels a week are now being shipped. These are practically all mullet. The fishing industry is represented by three companies.

E. W. Slappy and C. W. Dixon of Jacksonville claimed to have had $55 and $60, each respectively, taken from their trunks in their boarding house. Slappy now asserts that Dixon robbed him and claimed the loss of money to hide his theft. Dixon is under arrest.

G. E. Paul, a well known contractor, went to his boarding house at Tarpon Springs at 6 o'clock Wednesday evening. His wife came to the dining room to meet him, when he shot her with a double-barrel shotgun. He then ran to the brick yard and shot himself. He had been drinking heavily for some weeks. He left no statement.

When the mail boat running between Fort Myers and Punta Gorda arrived at the latter place Wednesday Staten Johnson and another man were the only persons on board. The engineer, Theodore Scott, was missing, and these men claimed he fell overboard and was drowned. A search revealed some bloody garments supposed to belong to Scott and the two men were arrested. The body of Scott has not been recovered.

Doomed.

"Bigstar's manager has promised to give a presentation of that comedy of mine," said De Riter, "but I don't know when it's to come off."

"Probably the night after it's put on," suggested Crittick.—Catholic Standard and Times.

SCIENCE PREVENTS BALDNESS.

The Fatal Germ and Its Remedy Now Facts of Science.

It is the rarest thing in the world for a man to be necessarily bald. No man whose hair is not dead at the roots, need be bald if he will use Newbro's Herpicide, the new scalp antiseptic. Herpicide destroys the germ that cuts the hair off at the root; and cleans the scalp of dandruff and leaves it in a perfectly healthy condition. Mr. Mannett, in the Maryland Block, Butte, Mont., was entirely bald. In less than a month Herpicide had removed the enemies of hair growth, and nature did its work by covering his head with thick hair an inch long, and in six weeks he had a normal suit of hair. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

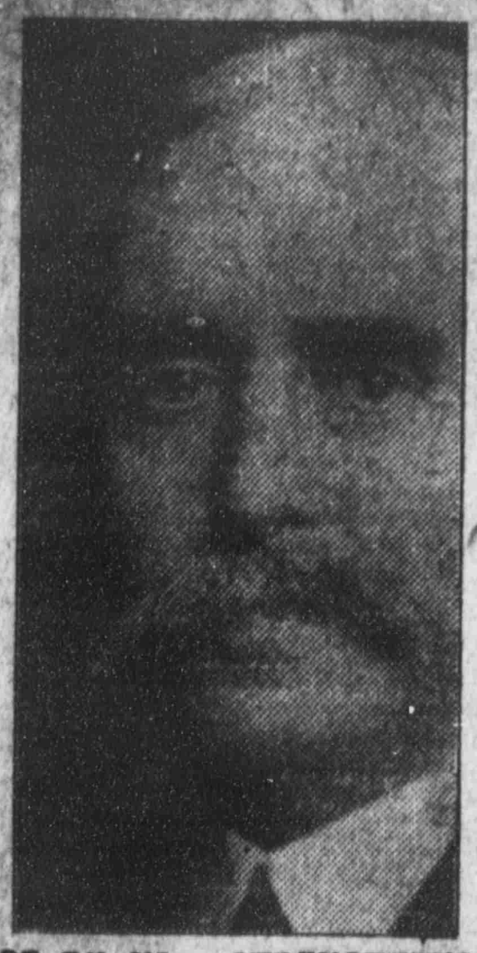
LIEUT. F. S. DAVIDSON.



PE-RU-NA STRENGTHENS THE ENTIRE SYSTEM.

F. S. Davidson, Late Lieut. U. S. Army, Washington, D. C., care U. S. Pension Office, writes:

"To my mind there is no remedy for catarrh comparable to Peruna. It not only strikes at the root of the malady, but it tones and strengthens the system in a truly wonderful way. That has been its history in my case. I cheerfully and unhesitatingly recommend it to those afflicted as I have been."—F. S. Davidson.

If you do not derive prompt and satisfactory results from the use of Peruna, write at once to Dr. Hartman, giving a full statement of your case, and he will be pleased to give you his valuable advice gratis.

Address Dr. Hartman, President of The Hartman Sanitarium, Columbus, Ohio.

DON'T BOLT YOUR FOOD.

There Is Pleasure as Well as Health in Deliberate Eating.

Fast eating is sure to be injurious, because to properly prepare the food for digestion it must be thoroughly masticated.

Rapid eating is still worse when it is caused by the hurry of business or by anxiety or nervous irritability or by the common habit of "bolting" the food. Such eating is sure to produce indigestion or dyspepsia.

The teeth, as well as the stomach, are made for labor, and neither can have their proper work to do if only paps and broths and puddings and hashes and other soft and artificially prepared foods are crowded into the stomach as though the cook in the kitchen could masticate and digest the food better than the natural grinders and the chemical action and assimilating power of the stomach.

Those people who shovel great vulgar mouthfuls of food into their mouths and bolt it down as though they had but ten minutes for a meal are gormandizers instead of polite people.

They know little of the pleasure of deliberate eating or the luxury of satisfying hunger, and certainly they are laying the foundation of disease.

Dry, hard food, vigorously chewed, stimulates the flow of saliva, strengthens the teeth and keeps them healthy and invigorates the digestion.

A Clear Complexion and Bright Eyes.

In most cases a sallow, blotched complexion and dull heavy eyes are due to poor digestion and an inactive liver. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels and makes the complexion smooth and clear. Orino Laxative Fruit Syrup does not nauseate or gripe and is mild and pleasant to take. Refuse substitutes. J. W. McCollum & Co.

Sleep and Death.

An animal deprived of sleep dies more quickly than from hunger. One of the cruelest of Chinese punishments is to kill a man by preventing sleep, he dying insane about the fourteenth day. All animals sleep for some period of the twenty-four hours. How and when they do so depend upon their natural habits. But they all have this in common—that after any unusual exertion they sleep longer.—London Mail.

Got Off Cheap.

He may well think he has got off cheap who, after having contracted constipation or indigestion, is still able to perfectly restore his health. Nothing will do this but Dr. King's New Life Pills. A quick, pleasant and certain cure for headache, constipation, etc. 25c at all drug stores; guaranteed.

WOMEN IN PARLIAMENT.

Down to Time of Edward III. They Had Right of Voting.

The ladies of birth and quality sat in council with the Saxon Witas. The Abbess Hilda presided in an ecclesiastical synod.

In Wighfred's great council at Beconceld, A. D. 694, the abbesses sat and deliberated, and five of them signed the decrees of that council along with the king, bishops and nobles.

King Edgar's charter to the abbey of Crowland, A. D. 961, was with the consent of the nobles and abbesses, who subscribed the charter.

In Henry III. and Edward I.'s time four abbesses were summoned to parliament—viz, of Shaftesbury, Berking, St. Mary of Winchester, and of Wilton.

In the thirty-fifth of Edward III. were summoned by writ to parliament, to appear by their proxies, Mary, countess of Norfolk; Alienor, countess of Ormond; Anna Dispenser, Phillippa, countess of March; Johanna Fitz Water, Agneta, countess of Pembroke; Mary de St. Paul, countess of Pembroke; Margaret de Roos, Matilda, countess of Oxford; Catherine, countess of Athol. These ladies were called by their proxies, a privilege peculiar to the peerage, to appear and act by proxy.—"Antiquities of Parliament."

Men Past Sixty in Danger.

More than half of mankind over sixty years of age suffer from kidney and bladder disorders, usually enlargement of prostrate gland. This is both painful and dangerous, and Foley's Kidney Cure should be taken at the first sign of danger, as it corrects irregularities and has cured many old men of this disease. Mr. Rodney Burnett, Rock Port, Mo., writes: "I suffered with enlarged prostrate gland and kidney trouble for years, and after taking two bottles of Foley's Kidney Cure I feel better than I have for twenty years, although I am now 91 years old." J. W. McCollum & Co.

Ancient Bridge Superstition.

A primitive notion existed among the Romans and other races that a bridge was an offense and injury to the river god, as it saved people from being drowned while fording or swimming across and robbed the deity of a certain number of victims which were his due. For many centuries in Rome propitiatory offerings of human victims were made every year to the Tiber. Men and women were drowned by being bound and flung from the wooden Sublician bridge, which, till nearly the end of the republican period, was the one and only bridge across the Tiber in Rome.

Authorship as a Profession.

Nobody should write who is not firmly possessed of the idea that he has a vocation for literature and is not willing to endure the penalties of art for the sake of serving an art. If a person who writes in that spirit makes a living he earns it. If he makes a fortune he deserves it.—New York Times.

A dwarf sees farther than the giant when he has the giant's shoulder to mount.—Coleridge.

Like Finding Money.

Finding health is like finding money—so think those who are sick. When you have a cough, cold, sore throat, or chest irritation, better act promptly like W. C. Barber of Sandy Level, Va. He says: "I had a terrible chest trouble, caused by smoke and coal dust on my lungs; but, after finding no relief in other remedies, I was cured by Dr. King's New Discovery for consumption, coughs and colds." Greatest sale of any cough or lung medicine in the world. At all drug stores; 50c and $1; guaranteed. Trial bottle free.

The papers that are discussing a change in the date of the inauguration of the President must be of a different political faith. We have not considered the question, as our party has not been engaged in the inauguration of presidents for some years.

When the government bought the Philippine Islands many thought it was a most foolish venture. But the administration evidently knew what it was about, as there is a lake of kerosene on the islands sufficient to supply the demands of the country for years to come.

Because some old fossil has taught school in the little old Dutch town of Lancaster, Pa., for 56 years, The Savannah News thinks that teaching school is a dead easy thing and is not wearing on the nerves. It is quite evident that it is not a very profitable business or the old gentleman would be able to retire on a competence.

HEALTH IN FLORIDA.

There is much fear expressed by Northern people who spend the winter in Florida and go home early in the spring, lest they remain here so late that they contract malaria or are afflicted with typhoid fever. The facts are that such ideas originate in the minds of people who never set foot on Florida soil, who imagine it a morass, with an occasional spot large enough for an alligator to get out and sun himself, and where snakes and other creeping things do dwell.

The truth in regard to the health of Florida, and nothing but the truth, will show that the malaria is not hereabouts, as is suspicioned by these nervous people. In every country on this earth the system needs a cleansing in the spring, and in Florida it needs no more than in other sections.

The past summer, it is claimed by old settlers, has been the warmest for many years, and in nearly every locality there has been a cry that the rainfall has surpassed any summer for the past twenty years, yet the doctors complain that it has been distressingly healthy. The undertakers have been idle nearly all summer, and there has not been enough business in this line alone to keep one man from the poorhouse.

Many men have worked hard all summer, in heat and rain, never having a trouble from the effects of malaria, and although it was stated in the early spring that we were liable to have considerable fever here this summer, it has not put in an appearance and perhaps will not do so at the late season.

The people who come to Florida and spend the summer find the conditions so different from what they had supposed that after one or two years they have no hesitancy in pronouncing it as healthy as any that can be found, and instead of ducking into the shade when the hot rays of the sun come down, go about their work as though they had an awning to cover them. The sun is hot, to be sure, but it has killed mighty few, if any, people in the South, while in the North it has caused many hundred deaths the past summer.

Don't be afraid to spend the summer in Florida, and when a person talks of malaria, just compare figures with them. Florida is a healthy winter and summer resort.

THEY ARE FANATICS.

Dr. Charles H. Conway, pastor of the Water Street Methodist Church in Chicago, was in Atlanta a few days ago, en route to New Orleans, where he goes to assist in the fight against yellow fever. Dr. Conway lived in tropical countries many years before coming to America, where yellow fever is continually to be fought. His church gave him indefinite leave at full salary. In a conversation with a Constitution reporter he said:

"It is a mistake for the Southern people to think that the North does not sympathize with them fully in their every problem. Even in regard to the negro question there is in the North and Northwest a perfect harmony of feeling, and it is daily being regarded not as a sectional, but a national question for those most closely allied to it to solve. There are a few fanatics in the East who are still—well, you might simply say that they are simply—fanatics."

Pensacola people are making an effort to give that city a thorough cleansing, and then they will keep it clean in the future. A capital idea for every town in Florida.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer one hundred dollars for any case that it fails to cure. Send for list of testimonials.

Convulsion, Fits, then Epilepsy.

Dr. Miles' Restorative Nervine has been so successful in curing these brain-wrecking diseases that there is every reason to believe that even the most hopeless cases can be benefited, if not fully restored.

We will be pleased to refer any one thus afflicted to many who now enjoy the blessing of health, after years of hopeless suffering.

"I have a son that had brain fever when two years old, followed by fits of the worst type, and he was pronounced incurable. I spent hundreds of dollars for him, without relief. After about fifteen years he became so bad that we sent him to Longcliff hospital for the insane, at Logansport, Ind. He was there nearly three years, but he continued to grow worse, so we brought him home July 30, 1902, in an awful condition. He had lost his mind almost entirely. He hardly knew one of the family; could not even find his bed; was a total wreck. He had from 5 to 10 fits a day. We were urged to try Dr. Miles' Nervine, and before the first bottle was used, we could see a change for the better. We have given it to him ever since, and he has had but two very light spells since last August, 1903, and then he was not well other ways. We pronounce him cured, as he can work and go anywhere. If any one wishes to ask any questions concerning this, they are at liberty to do so."

E. H. BUNNELL, Lincoln, Ind.

Dr. Miles' Nervine is sold by your druggist, who will guarantee that the first bottle will benefit. If it fails, he will refund your money.

THE BASQUE COUNTRY.

Its Peculiar Language and Odd Customs of the People.

Of the strange scenes and customs of the Basque country a traveler writes: "I was struck by the way the women walked and carried themselves. A fat old woman with a huge tray on her head walked along at a swinging pace, shouting her wares meanwhile at the top of her voice. I saw a woman carrying on her head first of all a large tray of fruit (its size can be imagined when I tell you that it was afterward her stall). On the top of this were a basket of washing and a big umbrella to be used to cover the stall. Then in her left hand she carried a supplementary stall, and by the other she led a little child which could just reach its mother's hand by holding its own up as high as it could stretch.

"I was waiting once at a little wayside inn in the village of Ascain when I saw an old lady, followed by two great fat white pigs. They all three waddled over to the village pump, and then, procuring some water in a pail, the old lady proceeded to wash her charges. She cleaned them most assiduously—eyes, ears, tail, back, hind quarters and feet.

"There is a dignity of carriage about all the women in this country. I fancied it might be due to the fact that formerly, before the 'Code Napoleon' came into operation, the law obliged the firstborn, whether boy or girl, to inherit the patrimony and continue the blood of the family, the husband taking the wife's name when the inheritor was a woman, thus giving the woman a perfect equality from her birth. The matrons are not less beautiful than the younger women.

"Quite unlike any other language is that of the Basques. Although when hearing the people talk a Spanish sound seems to be occasionally emitted, it is not really at all like Spanish. I was amused to find that 'no' is 'ess' in Basque, and when I asked what 'yes' was I thought at first the answer was 'ba,' which would have been very curious, but it turned out to be 'ba,' with the 'b' softly pronounced."

A PERFUME THAT SMELLS.

The Awful Odor That Comes From Pure Attar of Roses.

The perfumer took from his desk a small flask of copper.

"In flasks like this attar of roses comes to us," he said. "Attar of roses is worth from $10 to $25 an ounce, according to the market. This flask is empty now, but in it a little odor still lingers."

The visitor smiled delightedly. He had never smelt pure attar of roses before. Now he unscrewed the stopper and, closing his eyes, with an ecstatic look he applied his nostrils to the flask.

But only for an instant. Then he threw back his head, twisting his features into a grimace of disgust, and he exclaimed:

"Garbage! Bone yards! Glue factories!"

The perfumer laughed.

"All essential oils smell like that," he said. "Yet no good perfume can be made without them."

He took from a shelf a cut glass jar filled with a thick, yellowish oil that looked like petroleum partly refined.

"In this jar," he said, "there are forty ounces of pure attar of roses worth over $500. You know how the attar smells alone. Now watch me make a rich perfume by adding things to it."

He put a few drops of the attar into a vial. He filled the vial with spirits of musk, another of orris, then one of neroli, one of rose, of violet, of orange, of vanilla, and, finally, the oil of cloves and bergamot.

"There," he said, "smell that. Isn't it exquisite?"

"Exquisite!" said the visitor.

"Well, without its foundation of the malodorous and costly attar of roses it wouldn't smell any better than a plate of soup."—New York Herald.

As a Clincher.

"I'm not so particular about speed, but I must have a gentle horse," repeated Mr. Green. "My wife wants to drive, you see. Will you warrant this horse to be safe?"

"Certainly," said the dealer reassuringly. "He's a regular lady's horse."

"You are sure he's not afraid of anything?" asked Mr. Green anxiously and for the tenth time.

The dealer assumed an air of reflection.

"Well, there is one thing that he has always appeared to be afraid of ever since I got him," he admitted conscientiously. "It seems as if he's scared to death for fear some one might say 'Whoa!' and he not hear it."

Disappointed.

Newed—Alas, I am a disappointed man. My wife cannot sing. Oldwed—Can't sing! Why, man, that ought to be a cause for rejoicing. You are to be congratulated. Newed—Yes; but the trouble is she thinks she can.

The Dark Ages.

Ralph—Why did they call the middle ages the dark ages? Junior—Because the women kept their age dark?

Movable Bedrooms.

In one of the old castles of northern England visitors are shown two rooms which are connected with each other by a singular mechanism. Each room is adjoined by an alcove used as a sleeping room apartment, and the floors of the adjoining alcoves turn on a pivot in the center of the partition wall. This ingenious device was the invention of one of the ancestors of the present proprietor, who was somewhat of a wag and found great pleasure in frightening and mystifying his guests. When one had gone to bed in the green room and the other in the blue, the floors were turned on their pivots, and on awakening the visitor found himself in strange quarters, with clothes that were not his own. It is said that this fun loving lord lost a rich inheritance by thus disturbing the restful moments of a wealthy aunt, who never forgave the trick her nephew played upon her.

Parish Clerks as Actors.

In the fourteenth century the parish clerks of London frequently took a part in the miracle plays, then commonly acted in churches, and also annually performed mystery plays in public near the old clerk's well, which gave its name to Clerkenwell. Occasionally they even acted before royalty. Thus Hollinshed records that the London parish clerks of the Brotherhood of St. Nicholas, who formerly were a dignified body with a chartered guild and hall of their own in Bishopsgate street, performed a play on three successive nights before Richard II. and his queen and court to divert the royal resentment against the citizens of London for a recent riot in the city.

Costly Correspondence.

"I see that a letter supposed to have been written by Henry VIII. has just brought $2,000."

"That's nothing. A letter of mine just brought $10,000."

"Indeed?"

"Yes; to a girl who sued me for breach of promise."—Louisville Courier-Journal.

The Separation.

Mrs. Grogan—Keegan an' his wife had a fierce scrap. Mrs. Hogan—An' did they separate? Mrs. Grogan—They did, but Keegan was most dead before th' cops could get th' twisters on Mrs. Keegan an' separate thim!—Puck.

Paving the Way.

"Has Harold asked your father to give his consent?"

"He told father last night that he had made $5,000 in a real estate deal, so I suppose he's asking him on the installment plan."—Milwaukee Journal.

Devoured by Worms.

Children often cry, not from pain, but from hunger, although fed abundantly. The entire trouble arises from inanition; their food is not assimilated, but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once, very much to the surprise and joy of the mother. Sold by W. M. Johnson.

...ATIONS AND DRINKS

...AST DIFFERENCE IN THE USE OF CERTAIN BEVERAGES.

...erica and Russia Are Widely Apart In the Consumption of Coffee—How Italy and England Differ In the Use of Tea, Beer and Wine.

...Nations differ in what they drink far ...re than in their dress or speech, the ...e of their armies or the amount of ...ir national debt. In their use of ...ffee, for example, the American and ...e Russian offer as great a contrast ...s an octogenarian and a year-old ...be. On an average, the American ...inks as much coffee in one day as ...re the Muscovite in eighty days. In ...e consumption of tea, beer and wine ...e English and the Italians differ to a ...ll more startling degree. In one day ...e average Britisher sips as much tea ...s eighteen hundred Italians, and in the ...me length of time he swallows ...ough beer to keep the average Italian ...pplied for six months. Yet, in wine ...inking the Italian shows that he can ...nal eighty-four John Bulls.

According to the latest statistics of the department of commerce at Washington, it appears that the American is thirty temperate when compared with some of his European brothers. He drinks less beer than the Englishman, the German or the Austrian. In the use of spirituous liquors he falls still further behind and finds himself outclassed by the Austrian, the Hungarian, the German and the Frenchman. He also ranks fifth among the nations as a wine drinker. The Frenchman, the Italian, the Austrian and the German go ahead of him.

The American, far more than many Europeans, seeks refreshment and renewed energy in the "cup which invigorates, but does not intoxicate." Coffee and tea are his favorite beverages. On an average he drinks more coffee than the native of any country of the old world, and when classed with Europeans he is surpassed only by the Englishman in his use of tea.

The comparative temperance of the American, furthermore, would seem to be little endangered by the great immigration hither at the present time of Russians and Italians. In the use of spirits the Italian is at the very bottom of the list of Europeans. He also drinks less beer than any of his neighbors. He drinks considerable wine, but it is a wine that contains little alcohol, and even in this category he falls some distance behind the French. The Russian ranks sixth in the consumption of spirits, and he drinks one-thirtieth as much beer as the Englishman. He also uses so little wine that not even an estimate is obtainable of how much he does drink.

Should an American, an Englishman, a Frenchman, an Austrian, a German, an Italian and a Russian sit down to a table together and order drinks in a quantity that would show the relative consumption of these beverages by their respective peoples, some would get enough for a bath, while others would obtain only a few swallows. If they should take tea, for instance, the Englishman would find himself confronted with 1,800 cups, the American with 400, the Russian with 275, the German with 36, the Austrian with 20, the Frenchman with 18 and the Italian with only 1.

If the tea should prove unsatisfactory and the party order beer, the Englishman again would prove himself the heaviest drinker. He would be found to rank considerably ahead of the German, who is generally supposed to swallow most of this beverage. He would get 175 glasses, while the German would take 150, the Austrian 100, the American 90, the Frenchman 67, the Russian 5 and the Italian only 1.

In case the weather should turn suddenly cold and the little assemblage decided that "something hot" would be better and every one order spirits, the Austrian would then outclass all the others. Nevertheless he would not distance his rivals to any great extent. It would be found that liquor suits the taste of the various drinkers far more evenly than any of the other beverages ordered. The Austrian would, for example, take 9 glasses, the German 6, the Frenchman 3, the American, the Englishman and the Russian 4 (though the American's glasses would contain a trifle more than the Englishman's, and the Englishman's "a bit" more than the Russian's), while the Italian would satisfy himself with 1.

Should the liquor prove too hot without a weaker drink afterward and all agree on wine for their farewell toasts the Frenchman would then "outswallow" his companions. His order would call for 100 glasses, while the Italian would content himself with 84, the Austrian with 17, the German with 6, the American with 1½ glasses and the Englishman with 1.

If at the end of this convivial scene the party should think some coffee would steady their nerves, the American would at last be found in the lead. He would ask for 60 cups, while the German would order 32, the Frenchman 21, the Austrian 10, the Italian 6, the Englishman 3 and the Russian only 1.—New York Tribune.

Abscess.

Abscesses, with few exceptions, are indicative of constipation or debility. W. H. Harrison, Cleveland, Miss., writes, Aug. 15, 1902: "I want to say a word of praise for Ballard's Snow Liniment. I stepped on a nail, which caused the cords in my leg to contract and an abscess to rise in my knee, and the doctor told me that I would have a stiff leg, so one day I went to J. F. Lord's drug store (who is now in Denver, Colo.) He recommended a bottle of Snow Liniment: I got a 50c size, and it cured my leg. It is the best liniment in the world." Sold by W. M. Johnson.

Paley on Private Property.

Archdeacon Paley, who died on May 25, 1805, wrote "Evidences of Christianity." The archdeacon likened "the divine right of kings" to "the divine right of constables" and satirized the institution of private property by the simile of a hundred pigeons in a field of corn. If, "instead of each picking where and what it liked, taking just as much as it wanted and no more," ninety-nine of them were to reserve only the chaff and refuse for themselves and heap up the rest for "the weakest, perhaps worst, pigeon of the flock," that, said Paley, would be just like human private property.

Nothing Wrong on His Side.

The man had been grumbling steadily for half an hour to his seat mate, whom he had never seen before. He had grumbled about business, politics, war, peace, vacations, church, children, railroads, schools, farms, newspapers and that unfailing scapegoat—the weather.

The man beside him had borne all that seemed necessary and at last bethought him of a way to silence the grumbler, if such a thing was possible.

"Are your domestic relations agreeable?" he asked suddenly, turning an inquisitive gaze on his companion.

"Yes, they are!" snapped the grumbler. "It's my wife's relations that make all the trouble."

Dr. Finn's Testimony Interesting.

Dr. Thomas Finn of Boonsboro, Mo., who has practiced medicine for 32 years, says he has used every prescription known to the profession for treatment of kidney and bladder diseases, and says he has never found anything so effective in both chronic and acute kidney and bladder trouble as Foley's Kidney Cure. It stops irregularities and builds up the whole system. J. W. McCollam & Co.

The Hazard of the Die.

A.—Where are you off to? B.—I am going to ask Mr. K——, the wealthy banker, for the hand of one of his daughters. A.—Indeed! Which of them? B.—I don't know yet. If he is in a good humor, I will take the youngest; if in a bad humor, the eldest.—Lustige Blatter.

An Anxious Father.

Sue Deering—I'm afraid papa was angry when you asked him for me, was he, Jack? Jack Hillow—Not at all. He asked me if I knew any more respectable men who would be likely to marry your five sisters if properly coaxed.

Men and Women.

He—I think every woman is entitled to be considered man's equal. She—Well, if she is willing to bring herself down to his level I don't see why she shouldn't be allowed to pose as his equal.—Illustrated Bits.

DYERSBURG, TENN., June 1, 1901.

This is to certify that I have used one bottle of the Texas Wonder. Hall's Great Discovery, and have been greatly benefited, and can cheerfully recommend it to the public.

C. H. OLDS.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.

H. H. Turner, for the past few months an operator for the Western Union Telegraph Company in this city, has been transferred to Charlotte, N. C.

Work is progressing nicely on the new Episcopal church and it is expected that the building will be completed within the next two months. It will be one of the handsomest edifices in the State when finished and a credit to the diocese and the city.

Marcus Endel has gone to New York for the purpose of purchasing his fall stock of clothing and gents' furnishings. Mr. Endel states that he proposes to secure this year the nobbiest and most up-to-date line of the kind ever seen in Gainesville, as he feels the demand justifies the same.

Among the prominent farmers visiting Gainesville yesterday was Bert Johns of Bannerville, Putnam county, who conducts one of the most successful farms in his section. Mr. Johns is well pleased with this section, and may locate here if he can succeed in disposing of his property in Putnam county.

The reporter seems to have misunderstood Superintendent of Instruction Kelley in the matter of appointment of students to the Female College and State University, as was a few days ago announced in The Sun. Dr. Kelley merely recommended these appointments, but the school board endorsed the recommendations.

Mr. and Mrs. Mert J. Main and daughter, formerly of Rocky Point but now residing at Nocatee, were in the city for a few hours yesterday. They were en route home from Rocky where they have been on a visit to the former's brother, Geo. Main. Mr. Main owns a handsome orange grove of seventeen acres, which he says promises a fine yield the coming season.

G. W. Miller, for the past few months assistant tax assessor, has resigned his position to accept a position as salesman in the store of Maynard, Jones & Maynard, general merchants, Alachua. Mr. Miller is a clever young man, and it goes without saying that he will make lots of friends in his new position. Assessor Colson declares he would not have permitted him to go had it not been for the fact that the work in his office for the year is about completed, as he has made a faithful and efficient assistant.

The Union Central Life Insurance Company

of Cincinnati

Established in 1867

Has made a record during the last twenty-five years not equalled by **any Life Company in the United States!**

In twenty-five years it has earned the highest rate of interest of any life company, although its assets have consisted of the safest non-fluctuating securities—mainly first mortgage loans on real estate—ON WHICH THE COMPANY HAS SUSTAINED A LOSS OF LESS THAN ONE TENTH OF ONE PER CENT, during the same period of years.

The UNION CENTRAL is the Great Policy-Holders' Company.

A. M. Cushman left yesterday for Philadelphia, where he will attend the Sovereign Grand Lodge, I. O. O. F., as a representative from the Grand Encampment of Florida. He expects to be absent several days, and his friends feel sure he will enjoy the meeting, as he is a very enthusiastic member of the order.

J. E. Hudson, the lumber manufacturer of Hampton who owns a nice home in North Gainesville, has decided to spend about $2,000 in altering and improving the same and will begin work within a short time. Mr. Hudson proposes to make this one of the most attractive places in that thriving suburb.

Frank H. Chase, State manager for the Cable Company, with headquarters in Jacksonville, has arrived in the city and will remain here for the next two or three days in the interest of his firm. Harper & Chase are agents for the company here and are enjoying a fine trade. F. H. Chase has been connected with the Cable Company for many years and has many friends throughout the State.

Attention is called to the advertisement of Marcus Endel, which appears elsewhere in this issue. Mr. Endel is now in the North, where he will purchase one of the largest and most up-to-date lines of clothing and furnishings for gents ever brought to this county. In the meantime, the present stock will be sold at greatly reduced prices in order to make room for the fall and winter line, soon to arrive. If you want bargains, consult the prices.

Mrs. Maretta C. Brooks, teacher of experience, and of the most modern methods, wishes to form classes in piano, organ, technique, modulation, phrasing, voice culture, and the art of singing. Special attention given to the healthful development of the body, which the thorough study of voice culture insures. Foundation work given to small classes at reasonable rates. References: Rev. S. B. Rogers, Hon. W. M. Holloway, Mrs. J. D. Turner. For further information call at Mrs. McIlvaine's, 106 N. Arredondo street.

Dr. William Sutherland and wife of High Springs were in the city yesterday. They were en route to Sarasota, where they will spend a few days recuperating. Dr. Sutherland, who is an enthusiastic Elk and a member of New York No. 1, the first lodge of that order ever instituted in the United States, came to town Thursday afternoon in order to be present at the meeting of Gainesville No. 990 in the evening, and he was of great assistance in conferring the work. The Doctor is well read in Elkdom, and his work was a great help to the local lodge, which appreciated very highly his services.
